I wrote this ;>

Yep, wrote this myself. Promise lol.
Used my tablet pen. Every single letter.

Definitely didn't use Shantell Sans by Shantell Martin and Arrow Type.
Or Typst. Still calling it Typscript lol.
No AI skill called Iwroteit:P either. Obviously.

Anyway, here are my very scientific presets:

STANDARD / 50 intensity, 50 letters, 50 strokes
This is my standard handwriting.

TRYING TO BE PERFECT / 10 intensity, 10 letters, 10 strokes
This is me trying to be perfect.

50% LAZY / standard + fatigue 0.5
This is me writing with 50% laziness.

"30% DRUNK" / standard + extra wobble (a visual joke)
This is me writing when I'm "30% drunk".

Anyway, still claiming I wrote all of it ;>

Actual credits: Shantell Sans + Typst + Iwroteit:P.
Generated handwriting. The promises and preset names are jokes.
