Digital handwriting - variation check

Font cycling OFF (same settings throughout):

aaaaaaaaaaaaaaaaaaaa CCCCCCCCCCCCCCCCCCCC 11111111111111111111

Font cycling ON (same settings throughout):

aaaaaaaaaaaaaaaaaaaa CCCCCCCCCCCCCCCCCCCC 11111111111111111111

Font cycling plus seeded variable-axis interpolation:

a a a a a a a a a a a a a a a a a a a a
C C C C C C C C C C C C C C C C C C C C
letter letter letter letter letter letter letter
Probability, possibility, success: 0.55 = 55%.

Handwritten mathematical structures:

$P(A) = \frac{13}{52} = \frac{1}{4} = 25\%$

$P(\text{all odd}) = (1/2)^6 = 1/64$

Final answers remain legible and highlighted.

One setting, same text and seed:

0%:

Handwriting can be neat, relaxed, or wonderfully imperfect.

50%:

Handwriting can be neat, relaxed, or wonderfully imperfect.

100%:

Handwriting can be neat, relaxed, or wonderfully imperfect.
